No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

-!- FUNCTION: Catalyzes the condensation reaction of fatty acid synthesis by the addition to an acyl acceptor of two carbons from malony1-ACP. Catalyzes the first condensation reaction which initiates fatty acid synthesis and may therefore play a role in governing the total rate of fatty acid production. Possesses both acceptoacety1-ACP synthase and acetyl transacylase acivities. Its aubstrate specificity determines the biosynthesis of branchedchain and/or straight-chain of fatty acids (By similarity).

-!- CATALYTIC ACTIVITY: Acyl-(acyl-carrier protein) + CO(2) + (acyl-carrier protein) = 3-oxoacyl-(acyl-carrier protein) + CO(2) + (acyl-carrier protein) + CO
                                                                                                    Gaps
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         STRAIN=VF5;
